

8.0 KLYPIST INSURANCE

Effective February 1, 2021

KLYPISTS with a Prime Subscription enjoy insurance Coverage under KLYP's master policy. This insurance coverage is only for services scheduled and paid for through the KLYP App. If you transact business outside of the KLYP App, KLYP's insurance does not provide coverage.

8.1 INSURANCE AND WHY?

In the event that an incident occurs while providing KLYP services, Prime Subscribers and their clients enjoy coverage for both Professional Liability and General Liability against unforeseen events and risks. This gives both the Client and provider a greater peace of mind.

8.2 WHO IS COVERED

- Providers are protected against claims for professional liability, e.g. if a client is hurt due to an accident that happens while performing a service.
- The provider and Client are protected if a piece of equipment were to fail causing an injury, fire or other damage.

8.3 WHEN AND WHAT DO I NEED TO DO?

If you think an incident may have occurred, you should contact the [Solution Center](#) for an Incident Report.

The incident report helps protect everyone by collecting details while they are still fresh.
